Policy Statement on Visiting

The Department of Corrections recognizes the importance of visitation in making an offender's period of incarceration less difficult. With those offenders who have families, visiting privileges allow for the maintenance of family ties that may otherwise be lost. An offender's motivation to improve his condition is affected in a positive way when he has regular visits from family and friends.

This handbook has been designed to inform visitors at EDCF of the facility's rules and regulations as they pertain to visitation. Rules and regulations in regard to visiting are necessary for all facilities. This handbook as well as our visiting program has been set up to provide a fair, wholesome and safe environment for visitors, inmates and staff. All EDCF staff assigned to the visitation area shall strictly enforce all visiting rules and regulations in a polite and professional manner.

Although we feel visitation is an important element in the correctional process, your visiting privileges can be revoked / suspended for violating our rules and regulations.

Please read this handbook carefully to avoid any unnecessary delay or interruption of your visiting privileges.

Keep in mind the facility is highly resistant to making exceptions to the regulations outlined in this handbook.
