

# Statistical Summary

**FY 2012 Community Corrections Offender Population**

**KANSAS DEPARTMENT OF CORRECTIONS**

**COMMUNITY CORRECTIONS DIVISION**

**A safer Kansas through effective community collaboration and correctional practices**

**SEPTEMBER 2012**

## **Preface**

This report provides a detailed statistical summary of adult offenders under the Kansas community corrections system during fiscal year 2012. The report is based on data pulled from the Total Offender Activity Documentation System (TOADS). The number of offenders for whom information is available varies across data items. The data may differ from other reports published by the Kansas Department of Corrections and the Kansas Sentencing Commission because this report reflects information for community corrections offenders only; captures different data elements; and is captured at different points in time. Each set of data is prefaced with a short description of content.

## Fiscal Year 2012 Community Corrections Statistical Summary Data Index

Page	1	Title Page
Page	2	Preface
Page	3	Index
Pages	4 - 7	Section I: Average Daily Population for FY 2012
Pages	8 - 9	Section II: Number and Percentage of Community Corrections Offender Files Closed in FY 2012 by Agency and Reason for Closure
Pages	10 – 12	Section III: Number of Community Corrections Offenders with an LSI-R Score: Termination Reason by Supervision Level
Pages	13 – 14	Section IV: Number and Percentage of Departures by Agency and Statewide for FY2012
Pages	15 – 79	Section V: Number and Percentage of Community Corrections Offender Files Closed by Closure Type for Fiscal Years 2006 – 2012
		Section VI: Percentage of Initial LSI-R's by Risk Level; Most Recent LSI-R for Active Offender Population Closest to 12/31/11; Most Recent LSI-R for Active Offender Population Closest to 6/30/12

## SECTION I: Average Daily Population for FY 2012

The first section of data consists of the average daily population (ADP) for the community corrections offender population. There are three types of ADP included:

Top Number: ADP average for that particular month.

Year To Date ADP: ADP averaged from the time the fiscal year started (the top number and this number will always be the same for July of each year since it's the first month).  
Example: For September 2012 numbers, the number will be the average for July, August, & September.

12mo ADP: ADP averaged over the last 12 months. Example: July 2012 numbers, it looks at the ADP from August 2011 – July 2012 (12 months). The last month of each fiscal year (June) will always be the same as the YTD ADP (since June is the 12 month).

FY 2012 ADP (YTD & 12MO)

**SECTION II: Number and Percentage of Community Corrections Offender Files Closed in FY 2012  
by Agency and Reason for Closures**

The data in Section II is a one page snap-shot of how offender files closed in fiscal year 2012. The numbers and percentages match Section I numbers in this report. Information was pulled from the Court Case Sentencing Activity Report which was run on 7/16/12 at 7:31:22 AM.

You may notice that if you sum up all the agencies they will not equal the statewide total. This is because looking at the data from the agency perspective, offender files have the possibility of having more than one file during that particular time frame (meaning offender could be on supervision, completed, then back on within the same year) – in data terms, the offender can be duplicated. But when it looks at the statewide summary it's just looking at the actual offender (even though it says offender files) – in data terms – unduplicated.

**SECTION III: Number of Community Corrections Offenders with an LSI-R Score:  
Termination Reason by Supervision Level**

This is a quick snapshot of the number of offenders LSIR risk level by termination reason for all agencies and statewide for fiscal year 2012. The second page is the percentage of offenders LSIR risk level by termination reason. Numbers were pulled from the Court Case Sentencing Activity Summary Report which is run on 7/16/12 at 7:31:22 AM and matched with numbers pulled from TOADS-Assessment file (assessment conducted closest to discharge). The numbers in this data set will be the same or slightly lower or higher due to the Assessment file being pulled approximately 3 weeks after the CCSAR report was run. This gives the agencies time to have gone back in and discharged offenders who weren't there when the CCSAR was run on 7/16/12; and/or time to go back and change the reason for closure.

**Number of Community Corrections Offenders  
Termination Reason by Supervision Level

#### **Section IV: Number and Percentage of Departures by Agency and Statewide for FY12**

Data was pulled from the Court Case Departures Report (export to Excel) within TOADS for FY12 only. Please note that a departure may be counted more than once due to multiple departure types. There are several departure types but only the four most utilized departure types are included (as the report does not make a distinction between a Double Downward; Double Upward; or Up & Down departure).

The sentencing court may depart upward to increase the length of a sentence up to double the duration (**Upward Durational Departure**) within the sentencing grid block.

The court may also depart downward to lower the duration of a presumptive sentence (**Downward Durational**).

The sentencing court may depart upward to increase the type of supervision from probation to prison (**Upward Dispositional**)

The sentencing court may also depart downward to decrease the type of supervision from prison to probation (**Downward Dispositional**).

\*A more in-depth explanation of departure types is available by request if needed.

\*Departures may be counted more than once due to multiple departure types.

The last two sections of the FY12 Community Corrections Statistical Summary will be presented by agency.

**Section V: Number (first chart) and Percentage (second chart) of Community Corrections Offender Files Closed by Closure Type for Fiscal Years 2006 – 2012**

Data consists of the number and percentage of offender files by termination reason for fiscal years 2006 through 2012 for each agency and statewide. On the left-hand side of the first chart, the fiscal year followed by an “N=”. The “N=” represents the total number of offender files closed during that fiscal year.

There is a third chart in this section that is slightly different from last year. It groups all Revocations into a Revoked category and groups the Successful, Unsuccessfuls, Death and Not Sentenced to Community Corrections offenders into a Successful category. On the Successful completion bar, there are two different lines: the solid line represents the agency’s goal for FY12; the dotted line represents the agency’s goal for FY13. If the bar is at or above the solid line, the agency met the 3% Successful increase or 75% Successful completion goal for FY12.

All information included in Section IV was pulled from the Court Case Sentencing Activity Report which was run on 7/16/12 at 7:31:22 AM.

**Section VI: Percentage of Initial LSI-R’s by Risk Level; Most Recent LSI-R for Active Offender Population Closest to 12/31/11; Most Recent LSI-R for Active Offender Population Closest to 6/30/12**

Data included in the first chart provides a breakdown of initially assigned risk levels. On the right-hand side of the chart there is an “N=” which is the number of offenders who scored at that risk level. The data only includes fiscal year 2012 and represents the number and percentage of offenders in each supervision level based upon the initial LSI-R assessment. Data was exported from the SB14 Planning Report run within TOADS on 8/1/12. The search criterion was for Assessment Dates between 7/1/11-6/30/12 and for Pre-Sentence/Initial LSI-R’s only.

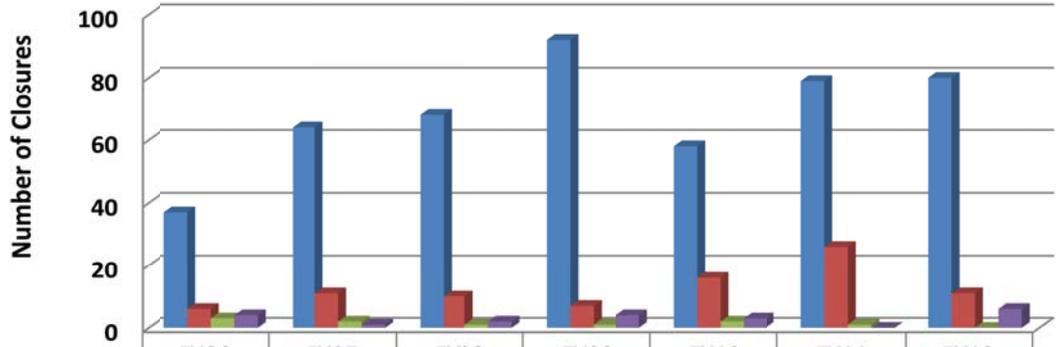

The next two charts represent the entire FY12 population which consists of four groups:

- Sentenced before FY12 and closed during FY12
- Sentenced before FY12 and are still open
- Sentenced during FY12 and closed in FY12
- Sentenced during FY12 are still open

These charts represent whichever LSI-R was closest to 12/31/11 and 6/30/12 for offenders meaning it could be a Pre-Sentence/Initial, Reassessment, or Discharge assessment. This means the overall numbers of LSI-Rs will be considerably higher as it is capturing all four groups. Data was pulled from TOADS Scored Assessment flat file and merged with the Status flat file on 8/1/12.

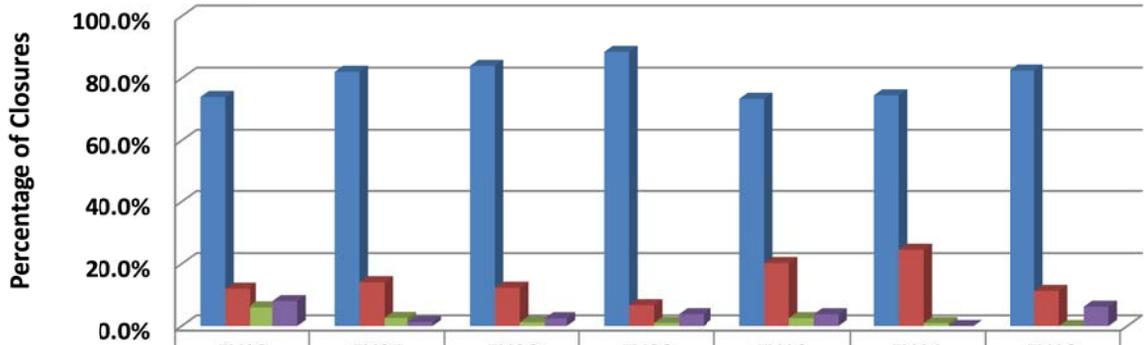

### 2nd District

FY06 (N=50)  
 FY07 (N=78)  
 FY08 (N=81)  
 FY09 (N=104)  
 FY10 (N=79)  
 FY11 (N=106)  
 FY12 (N=97)
