

# **Statistical Summary**

**FY 2011 Community Corrections Offender Population**

**KANSAS DEPARTMENT OF CORRECTIONS**

**COMMUNITY CORRECTIONS DIVISION**

**A safer Kansas through effective community collaboration and correctional practices**

**OCTOBER 2011**

## **Preface**

This report provides a detailed statistical summary of adult offenders under the Kansas community corrections system during fiscal year 2011. The report is based on data pulled from the Total Offender Activity Documentation System (TOADS). The number of offenders for whom information is available varies across data items. The data may differ from other reports published by the Kansas Department of Corrections and the Kansas Sentencing Commission because this report reflects information for community corrections offenders only; captures different data elements; and is captured at different points in time. Each set of data is prefaced with a short description of content. There are seven different sets of data included within this report.

## Fiscal Year 2011 Community Corrections Statistical Summary Data Index

**SECTION I: Number and Percentage of Community Corrections Closed Offender Files  
by Reason for Closure for Fiscal Years 2006 – 2011**

The first section of data consists of the closed offender files by termination reason for fiscal years 2006 thru 2011 for each agency and statewide (pages 6 - 37). For this data set, a file is defined as a court case assigned to a specific offender. In any agency's jurisdiction, an offender may have multiple cases ("files") that close within the time frame. In that event, the case closure reasons are weighted so that an offender is only counted once, and an accurate count of offenders who are successful or revoked can be obtained. The data contains the number and percentage of how the offender files closed during the last six fiscal years. On the left-hand side of the document you will see the fiscal year followed by an (N=). The "N=" represents the total number of offender files closed during that fiscal year. The last bar on the third chart represents where the 20% targeted revocation reduction lies when comparing to FY06 numbers.

All information included in Section I was pulled from the Court Case Sentencing Activity Report which was run on 7/12/11 at 7:38:12 AM.

### **SECTION III: Number of Opened Offender Files for Fiscal Years 2006 – 2011 by Agency and Statewide**

The third section of data contains the total number of offender files opened during fiscal years 2006 thru 2011 for each agency and statewide. A file is defined as a court case assigned to a specific offender. A file is opened when a new court case record is created due to a new sentence to community corrections or when an offender is assigned to community corrections in the pre-sentence state under SB123 legislation. Please note there are three agencies per page. Information was pulled from the Court Case Sentencing Activity Report which was run on 7/12/11 at 7:38:12 AM.

**SECTION IV: Number of Community Corrections Offenders with an LSI-R Score:  
Termination Reason by Supervision Level**

This is a quick snapshot of the number of offenders LSIR risk level by termination reason for all agencies and statewide for fiscal year 2011. The second page is the percentage of offenders LSIR risk level by termination reason. Numbers were pulled from the Court Case Sentencing Activity Summary Report which is run on 7/12/11 at 7:38:12 AM and matched with numbers pulled from TOADS-Assessment file (discharge assessments that occurred between 7/1/11-6/30/11). The numbers in this data set will be the same or slightly lower or higher due to the Assessment file being pulled approximately 2 months after the CCSAR report was run. This gives the agencies time to have gone back in and discharged offenders who weren't there when the CCSAR was run on 7/12/11; and/or time to go back and change the reason for closure.

**SECTION V: Average Number of Offender Files Closed per Month by Reason for Closure  
Fiscal Years 2006 – 2011**

The data in Section V shows the average number of offender files closed per month, which is represented by the black numbers above each bar, for the last six fiscal years. Please note that all revocations are lumped together. There is no “Other” category. The chart below the graph provides the total number of closed offender files by each category for the last six fiscal years. These numbers match the numbers from Section I of this report. At the bottom of each graph, there is some text; please note that the number in bold is where the 20% reduction would lie (when compared to FY06). A black (or white) line is drawn across the revocation section; this indicates where the 20% reduction is. Any bar that falls at or beneath the line has met the 20% revocation reduction. There are two agencies listed per page. Information was pulled from the Court Case Sentencing Activity Report which was run on 7/12/11 at 7:38:12 AM.

**Average Number of Offender Files Closed per Month by Reason for Closure  
Fiscal Years: 2006 - 2011**

\*The line across the Average Revocation closure reason represents where the 20% reduction lies. Any bar that falls at or beneath this line means the agency met the 20% targeted revocation reduction goal when compared to FY06 numbers. (20% Reduction=0.4) Numbers are pulled from the Court Case Sentencing Activity Report from TOADS.

	Successful	Revoked	Unsuccessful

\*The line across the Average Revocation closure reason represents where the 20% reduction lies. Any bar that falls at or beneath this line means the agency met the 20% targeted revocation reduction goal when compared to FY06 numbers. (20% Reduction= 131.4) Numbers are pulled from the Court Case Sentencing Activity Report from TOADS.

	Successful	Revoked	Unsuccessful
<b>FY06</b>	2255	1971	500
<b>FY07</b>	2428	1759	507

**SECTION VI: Percentage of Initial LSIR-R's by Risk Level for Fiscal Year 2011  
All Agencies & Statewide**

The information included in Section VI provides a breakdown of initially assigned risk levels. On the right-hand side of each chart there is an "N=", this is the number of offenders who scored at that risk level. The data only includes fiscal year 2011. The information shows the number and percentage of offenders in each supervision level based upon the initial LSIR assessment. There are three agencies listed per page. Data was exported from the LSIR Flat View file within TOADS. The search criterion was for Assessment Dates between 7/1/2010 and 6/30/2011 and for Pre-Sentence/Initial LSIRs.

## **SECTION VII: FY2011 LSI-R Data**

The last section contains discharge LSI-R data for offenders whose supervision was terminated during fiscal year 2011. The data lists each agency and statewide, and provides the number and percentage of offenders who scored Very Low, Low, Moderate, High, and Very High by LSI-R domain (all 10 domains) by each termination reason. This does not lump revocations together. Please note that offenders who were Not Sentenced to CC (N=94), who Died (N=47), or who had no discharge assessment score (N=529) were not included in this data. This data was pulled from running the SB14 Planning Report (designed by Lori Allison) with the search criterion of 7/1/2010 – 6/30/2011.
