## 2020 PREA REPORT

This year we have undergone another PRE audit, we were found to be compliant. This is the first year that we have had no PREA complaints or reports. We as an agency continue to work and improve our PREA policy and corrective action plan. Since we began PREA we have added more cameras to the facility. We have been working on better training practices for staff and volunteers and making it easier for inmates to report sexual violations and sexual harassment. As we see the opening of the new addition, we have had many conversations about camera placement. We want to maximize inmate privacy while still maintaining inmate safety and security.
