<td>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a &quot;housing unit&quot; defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled sight lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</td>

Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

PRE-AUDIT

A Notice of PREA Audit was sent to the Jackson County Sheriff’s Office (JASO) on May 18, 2020 via the PREA Coordinator Steve Buck. Notices were to be posted in all living units, program areas, recreation areas and any other areas that offenders would gather. The notice also contained contact information of the auditor and advised staff and offenders that the onsite portion of the PREA audit will be conducted on June 24 – 25, 2020. At this time, this Auditor requested the pre-audit questionnaire (PAQ) be sent to during the week of June 1, 2020.

On June 20, 2020, this Auditor received a flash drive containing JASO’s Pre-Audit Questionnaire. The flash drive contained agency policies and other supporting documentation. The Auditor reviewed the provided documentation and began completing the Auditor’s Compliance Tool to determine a baseline for compliance and to formulate questions for the onsite portion of the audit.

On June 22, 2019, a tentative agenda for the PREA audit was sent the PREA Compliance Manager (PCM). This agenda outlined the when the auditing would be on site, the types of staff and inmates that would be interviewed and when the audit would conclude. The PCM was advised of which specialized staff would be interviewed as well as which specialized inmate populations would be interviewed.

ONSITE

The Auditor was greeted and given a history and the layout of the facility by PCM Dan Ballenger. After the initial meeting, a detailed tour was provided to the Auditor.

PCM Dan Ballenger lead the onsite tour. The tour began with the housing units. The Auditor viewed camera placements, showers/restrooms and observed cross-gendered announcements being made to offenders. PREA reporting information was clearly marked on bulletin boards in each living unit. In all living units toilets and shower stalls all had appropriate coverings. The “Notice of PREA Audit” was also clearly visible throughout the tour.

In addition to the living units, booking, kitchen, laundry, medical area, and control posts were also toured. PREA reporting information in English and Spanish were found on every bulletin board and were clearly marked.

Immediately after the tour, the PCM provided the Auditor with staff rosters from all three shifts and provided a list of specialized staff. The Auditor then randomly selected from each shift, as well as established times to interview specialize staff.
The PCM provided the auditor with housing unit rosters. In reviewing the housing rosters the Auditor randomly selected two - four inmates from each unit for random inmate interviews and selected inmates for the targeted protocols. Based on the available inmate population, inmates were selected for the following targeted protocols: Limited English Proficient (LEP). A total of 16 inmates were selected to be interviewed. JASO provided confidential locations in the jail for the Auditor to interview inmates.

JASO provided appropriate accommodations for the Auditor to conduct inmate and staff interviews. The Auditor was given access to staff files, inmate files and any documentation that was requested. Facility staff was great to work with and were very accommodating. The PCM and Sheriff were readily available to answer any questions and assist in any way. Staff at JASO was extremely helpful and polite throughout the entire process and escorted the Auditor throughout the facility.

The Auditor interviewed a total of 16 inmates who had various lengths of stay. In addition, the Auditor interviewed a total of 15 staff to include the Sheriff, PCM Medical Health Practitioner, Upper Level Supervisors, Intake Staff, Staff who Perform Risk Screening, staff who Monitor Retaliation, a member of the SAIR Team, Investigator, as well as random staff from all shifts.

Prior to the exit interview, the Auditor reviewed onsite documentation. There was an exit interview conducted at the end of the site visit.

POST AUDIT

After the onsite portion of the PREA audit, this Auditor reviewed the notes from the tour; all interviews conducted and did another review of the supporting documentation. Work on the final audit report began.

On July 28, 2020, the PREA audit report was submitted to the PREA Resource Center and copies were sent to the PCM and Sheriff.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

JASO is in Holton, Kansas. It currently holds adult male and female inmates. In addition to arrests made in Jackson County, JASO contracts to hold inmates from the U.S. Marshall Services and Kansas Department of Corrections. JASO holds all custody levels with the average age of the inmates' range from 18 to 72.

JASO (Jail Division) is contained in one building. Within this building are five (5) pods grouped around a control room, a kitchen, laundry area, sally port, inside recreation area and visitation. All meals are served and eaten inside the pods. JASO has four cells that are used for administrative and disciplinary issues.

It has a designed capacity of 108. On the first day of onsite portion of this audit, JASO had a population of 64 inmates.
JASO employs 15 correctional staff which includes upper level supervisors. In addition to correctional staff, JASO contracts with Advanced Correctional Healthcare, Inc (ACH) for onsite medical and mental health services. Currently there are three contractors who have contact with inmates. JASO also utilizes volunteers to provide bible study and Alcoholics/Narcotics Anonymous (AA/NA) to inmates. At this time, volunteers are not allowed in the facility to the outbreak of Covid-19. Volunteers have not been inside this facility since the end of March 2020.

### Summary of Audit Findings

The summary should include the number and list of standards exceeded, number of standards met, and number and list of standards not met.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)
☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s
conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

a) JASO has written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment of inmates. JASO PREA Policy, PREA 19, dated December 2019 states, “It is the policy of the Jackson County Sheriff's Office Jail Division to provide a safe and secure environment for all inmates. Inmates have the right to be free from all sexual abuse and sexual harassment and the JASO has a “zero tolerance” for such actions. All incidence will be investigated, regardless of whom the alleged victim or alleged perpetrator may be. JASO has implemented a Coordinated Response that includes prevention, detection, response, and prosecution/discipline of assailants. This policy targets sexual abuse and sexual harassment of inmates whether by staff or by other inmates.” (Page 1)

This policy outlines how it will implement the agency’s zero tolerance appoint to preventing, detecting, and responding to sexual abuse and sexual harassment. This policy also includes sanctions for those found to have participated in participated behaviors and JASO’s strategies and responses to reduce and prevent sexual abuse.

b) JASO has designated an upper-level, agency-wide PREA Coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. The Jail Administrator has been designated as the PREA Coordinator for JASO. JASO Policy PREA 19 states, “The Jail Administrator, tasked to develop, implement, and oversee Departmental efforts to comply with the national PREA standards.”

The Jail Administrator, who also holds the rank of Captain, is listed in JASO’s organizational chart and reports directly to the Sheriff.

JASO Policy PREA 19 also designates a PREA Compliance Manager. “The Sheriff shall designate a PREA Compliance Manager to oversee agency efforts to comply with PREA standards. The PREA Compliance Manager shall have overall responsibility for coordinating all elements of the Coordinated Response.”

The PCM at JASO holds the rank of Sergeant.

During the onsite portion of this audit, the PREA Coordinator was out of state on a prisoner transport. However, the PREA Compliance Manager (PCM) was available to be interviewed. The PCM stated, “I have the authority and I have enough time to complete my responsibilities.”

**RECOMMENDATION:** JASO Policy PREA 19 defines the PREA Compliance Manager (PCM) as “A person designated by the Captain or Sheriff, as having overall responsibility for ensuring that all elements of the Coordinated Response to Sexual Abuse and Harassment are met in a coordinated fashion.” However, later in the policy is states “The Sheriff shall designate a PREA Compliance Manager…” It is recommended the language in the definition of the PCM and the body of the policy be changed to match.

c) N/A JASO operates one facility

Based on the documentation review, tour of the facility, and interviews, JASO meets this standard.

a, c) JASO has developed a staffing plan and makes its best efforts to comply on a regular basis with said staffing plan to ensure adequate levels of staffing and video monitoring to protect inmates against sexual abuse.

JASO Policy, PREA 01-01-01, revised September 2019 states, “To ensure the safety of all staff and individuals incarcerated in the facility, the Jackson County Jail shall undergo an annual review of its
staffing plan and its video monitoring equipment.” This same policy also states, “When reviewing the staffing plan as well as the review of the video monitoring equipment, the following must be considered: Any findings of inadequacies from: Judicial, Federal Investigation Agencies, Internal oversight bodies, External oversight bodies, Physical building itself, Inmate population and its makeup, Number and placement of supervisory staff, Any programs occurring and on which shift, State or Local laws, Current regulations or standards, Prevalence of substantiated or unsubstantiated incidents of sexual abuse, Any and all other relevant factors.”

The Auditor reviewed a staffing and video monitoring review dated January 21, 2020. This review shows minimum staffing per shift and review of the cameras installed throughout the facility. At this time, JASO has 29 cameras installed.

This review was signed by the PREA Coordinator and the Sheriff per requirements in JASO Policy PREA 19. This policy states, “Video monitoring equipment shall be reviewed annually, at the yearend meeting. To ascertain any potential adjustments to either cameras or DVR system to ensure the safety of all individuals incarcerated in the facility. The annual review must be including but not be limited to the Sheriff, PREA coordinator and any other pertinent staff. The annual Staffing and video review form shall be filled out during this meeting, signed and placed in the PREA file for retention.”

When it comes video technology the Sheriff stated, “We look for vulnerable places and add cameras. It’s very important to protect people. We are always looking to upgrade and add memory to our system. As it stands now, we can keep 120 days’ worth of film. We also make sure we can pan and tilt our cameras to increase visibility.”

b) N/A JASO has not deviated from their staffing plan.

d) JASO has implemented policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. This practice incorporates all shifts. JASO PREA Policy 19 states, “The JASO Jail Division shall provide directives to reflect the policy and practice of having intermediate level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. This round shall be documented on the unannounced round sign in sheets. Staff shall be prohibited from alerting other staff members that these supervisory rounds are occurring unless such announcement is related to the legitimate operational functions of the facility.”

The Sheriff, PREA Coordinator and PCM are responsible for conducting these rounds.

The Auditor interviewed one upper-level supervisor responsible for conducting unannounced rounds. They stated these rounds are documented on a log. They also stated they have not had an issue of staff announcing their presence to other staff as the supervisors are highly visible and are constantly moving around the jail.

The Auditor reviewed documentation from September 2019 to January 2020 demonstrating unannounced rounds made at JASO.

Based on documentation review and interviews, JASO meets this standard.

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

JASO houses adult male and female offenders.

a) JASO does not conduct cross gender strip searches or cross-gender visual body cavity searches. In the past 12 months, JASO has not conducted cross-gender or visual body cavity searches.

JASO Policy 5.03, Jackson County Jail Searches Policy, states, “When male and female inmates are housed at JASO (Jackson County Jail), normally there is at least one male and one female staff member available to support same-gender strip searches. Strip searches are conducted in a respectful and dignified manner by trained staff of the same gender. The requirement for the same gender strip searches may be waived in the following circumstances: 1. In an emergency, i.e. escape, riot, fire, etc. 2. In exigent, time critical instances, when a correctional officer of the same gender is not available and there is reasonable suspicion that a weapon or dangerous contraband may be recovered by the search that could not otherwise reasonable be retrieved or neutralized and other(s) perceive a threat to life or health.” This policy also states, “Any body cavity search is documented with a copy of
the authorization from the Captain or designee and kept in the inmate’s file. When any body cavity searches other than visual are indicated, medical staff performs these duties, except in exigent circumstances.”

b, c) This same policy also states, “Inmate searches require expertise and professional attitude on the part of the employee. Pat or rub searches may only be conducted by an employee of the same gender of the inmate or detainee, and may be performed in any area of the facility and during movement…Pat or Rub searches conducted during exigent circumstances will be documented in the jail log.”

The Auditor interviewed three female inmates. All inmates reported they have not been strip searched or pat searched by male staff since they have been incarcerated at JASO.

All staff interviewed reported cross-gender strip or body cavity searches are not allowed. Staff also reported male staff do not pat search female inmates.

d) JASO has implemented policies and procedure enabling inmates to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks.

JASO Policy PREA 19 states, “An inmate shall be able to shower and perform bodily functions without nonmedical staff of the opposite gender viewing them, except in exigent circumstances (as defined above, per national PREA standards) or when such viewing is incidental to routine security checks. All video monitoring of individual cells shall maintain a privacy screen to ensure this.”

In the past 12 months, JASO has not had any exigent circumstances.

During the tour of JASO the Auditor found shower curtains on all showers or swinging half doors made of metal. The curtains and swinging doors provided privacy for all inmates. Showers at JASO are individual stalls. Toilets are also protected from view.

JASO has also implemented procedures requiring staff of the opposite gender to announce their presence when entering an inmate housing unit. JASO Policy PREA 19 states, “Staff shall be aware of inmates’ state of undress. The presence of staff of the opposite gender shall be announced prior to entering a housing unit where an inmate would normally be undressed. This announcement shall be called on the radio to control by the individual that made the announcement and shall be logged on the cell check sheet by the individual running the control board.”

Most inmates (11/16 male and female) interviewed reported cross gender announcements are made over the intercom. Those who report the announcements are not “always made”, advised the Auditor there are times they do not hear the announcement clearly due to the noise in the pod.

Every correctional officer interviewed report cross-gender announcements are made. While touring the facility, cross gender announcements were made for each pod.

e) JASO has policy in place prohibiting staff from searching or physically examining a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status.

JASO Policy 5.03 states, “Strip searches are conducted on all persons during the intake process, once it is determined that they will be housed within the general population of the facility. Strip searches shall not be performed on transgender inmates for the sole purpose of identifying gender. The intake
process normally includes issue of clothing, toiletry items, securing of personal valuables, bathing, etc.)” (Page 3)

Every correctional officer interviewed reported these types of searches are not allowed. They also reported they have never seen this type of search conducted.

There were zero transgender or intersex inmates onsite to be interviewed during this portion of the audit.

f) JASO reports all correctional staff (15) have been trained on conducting cross-gender pat down searches and searches of transgender and intersex inmates. JASO also has policy requiring this training.

JASO Policy PREA 19 states, “All staff members shall be trained in cross gender and transgender pat searches, as well as sexual abuse and harassment intervention.”

All staff interviewed reported they received training on cross-gender pat searches and searches of transgender and intersex inmates. JASO provided training certificates supporting staff statements. Training was completed through National Institute of Corrections (NIC) Learn, an e-learning platform.

Based on documentation review, facility tour and interviews, JASO meets this standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

a, b) JASO has established procedures to provide disabled inmates and inmates who are limited English proficient equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

JASO Policy PREA 19 states, “The facility shall provide inmate education in formats accessible to all inmates, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills.” This same policy also states, “In the event the individual is found to have issues understanding the facilities Zero tolerance Policy on Sexual harassment and sexual misconduct, Staff shall make every effort in ascertaining the issue and contacting appropriate services for them, to ensure their understanding. For individual that are Limited English Proficient (LEP), shall contact the Language line at 1-855-811-4787, per Jackson County Sheriff's Office Policy #76. For individuals that are Deaf or hard of hearing, Staff are to contact the Topeka Independent Living Resource Center for possible assistance.”

At the time of the onsite portion of this audit, LEP did not have inmates who classified as disabled to be interviewed. This included inmates who were visually or hearing impaired.

JASO had one inmate who was classified as limited English proficient. This inmate’s first language is Spanish. They stated they have been given information on how to report sexual abuse in Spanish. They also report they have no difficulty in communicating their needs to staff.

c) JASO prohibits use of inmate interpreters, inmate readers, or other type of assistants except in limited circumstances.

JASO Policy PREA 19 states, “Inmates shall not be used as interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate’s safety, the performance of first-response duties or the investigation of the inmate’s allegations.

In the past 12 months, JASO has had zero instances where inmate interpreters, readers or other type of inmate assistance have been used.

Interviews with correctional staff support this practice.

Based on documentation review and interviews, JASO meets this standard.

Agency investigators make up the PREA Investigative Unit (PIU) and are responsible for conducting all criminal/administrative investigations of alleged sexual abuse and or harassment of inmates.

In the past 12 months, there have been zero (0) forensic exams conducted for inmate sexual abuse. JASO does not have SANEs/SAFEs onsite. Forensic exams are conducted at the Stormont Vail Hospital in Topeka, Kansas. Sexual Abuse Nurse Examiners (SANEs) are employed at this hospital and perform all forensic exams.

a) JASO follows a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence. This protocol can be found in JASO Policy 69, Sexual Assaults, dated January 2012.

All staff interviewed understood their role in preventing the loss of evidence. Each correctional officer stated they would not let an inmate victim or perpetrator shower, change clothes or use the restroom. They also reported they would be required to close off the area and wait for the investigators to arrive on scene.

b) N/A JASO does not house youthful offenders or juvenile offenders.

c, d, e) JASO Policy 69 states, “Victim-centered care is paramount to the success of the forensic examination of victims of sexual assault. A timely, professional forensic examination increases the likelihood that injuries will be documented, and evidence collected to aid in the investigation and prosecution of sex offenders. Evidence may normally be collected up to 92 hours after the assault, but evidence can be gathered and injuries documented beyond that time, especially if the victim is injured, bleeding, or experiencing pain.” This same policy also states, “Show understanding, patience, and respect for the victim’s dignity and attempt to establish trust and rapport. Inform the victim that a Deputy of the same sex will be provided if desired and available. Contact a victim advocate as soon as possible to provide assistance throughout the reporting and investigative process. Supply victims of sexual assault with the phone number for the Rape, Abuse, and Incest National Network (RAINN) Hotline, 1-800-656-HOPE. Operators at this hotline connect the caller with the rape crisis center closest to the victim’s location. Request a response from investigations, and clearly explain his or her role and limit the preliminary interview so that the victim is not then asked the same questions by a detective. Be aware that a victim of sexual assault may bond with the first responding Deputy. It is important to explain the role of the different members of the sexual assault response team and help with transitions through introductions. Record observations of the crime scene, including the demeanor of the suspect and victim and document any injuries or disheveled clothing.”

In addition to RAIIN, JASO also has a memorandum of understanding (MOU) with the YWCA Center for Safety and Empowerment located in Topeka, Kansas. The YWCA Center for Safety and Empowerment will provide victims from JASO access to victim advocacy support and services. This MOU was signed June 19, 2019.

This is also supported by language in JASO PREA Policy 19 which states, “The JASO shall attempt to provide victims of sexual abuse victim advocacy services from a local YWCA. If this is not possible, efforts shall be made to provide victim advocacy services through a community-based organization or by a qualified staff member. The facility shall document its efforts in doing so. The JASO shall attempt to provide a victim advocate to support the victim through the forensic medical exam and investigatory processes.”
JASO Policy 69 also states, “When it is determined that a forensic examination will be conducted, a victim advocate or a support person of the victim’s choosing shall be allowed to be present in the room and during the interview, unless it would be harmful to the investigation. The Deputy shall take responsibility for excluding a support person, when appropriate, and providing an explanation to the victim and the support person. The department will not pass the cost of the forensic exam onto the victim of a sexual assault but shall seek sources of financial support from the community or state for these expenses. Deputies shall not use the state compensation program as means to encourage cooperation from victims. In the case of a victim who is unable at this time to proceed with an investigation, financial concerns shall be addressed prior to the examination.”

f) N/A JASO is responsible for all administrative and criminal investigations of sexual abuse or harassment.

Based on documentation review and interviews, JASO meets this standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

In the past 12 months, JASO has provided 1,358 inmates information on JASO’s zero tolerance policy and how to report incidents of sexual abuse or harassment.

a, e) Inmates at JASO receive information at time of intake about zero-tolerance policy and how to report incidents of sexual abuse or sexual harassment.

JASO Policy 19 states, “During the intake process, inmates shall receive information explaining the agency’s zero-tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment. During the booking process a pamphlet containing the following information is made available to the individual being processed for housing. Outlining the what is sexual harassment, what is inmate sexually abuse, what is staff sexual misconduct, what to do if you are sexually abused, what happens after you report sexual abuse, how to avoid sexual abuse, and what you should know if you are a perpetrator of sexual abuse.”

It is the practice of JASO to provide a PREA pamphlet outlining the agency’s zero-tolerance of sexual abuse and sexual harassment of inmates as well as how to report sexual abuse during the booking process. Inmates are also required to sign an acknowledgement they received this pamphlet. Inmates also sign a “PREA Re-Education Acknowledgement” within 30 days of being booked into JASO. JASO’s re-education form asks the following questions: Have your received the PREA pamphlet; Do you understand we have zero-tolerance policy on Sexual Abuse/Harassment; Do you understand you have the right to be free from retaliation, for either reporting an incident or cooperating with an incident; Do you understand if you have been victimized the first thing that would occur is separation of the victim and perpetrator; Do you remember the questions that were asked during intake; Has anything changed since the day you were processed into the facility?

All Correctional Staff also double as Intake (PREA Education Staff. All correctional staff interviewed reported inmates will receive a PREA pamphlet during the booking process. All inmates interviewed stated they remember getting a PREA “packet” when booked in. Most also reported there is PREA information on the Kiosk and remembered signing another PREA form.

While onsite the Auditor reviewed five inmate files. These files were randomly selected from the 16 inmates interviewed. The Auditor found all five files had the initial acknowledgment of receiving the
PREA pamphlet at booking and a signed Re-education Acknowledgment. This form was signed up to fourteen days after being booked into JASO.

b, c, d) This same policy also states, “Within 30 days of intake, the facility shall provide comprehensive education to inmates in person regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, the facility shall also provide information regarding procedures for responding to such incidents. The facility shall provide inmate education in formats accessible to all inmates, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills.”

f) JASO Policy PREA 19 states, “In addition to providing such education, the facility shall ensure that key information is continuously and readily available or visible to inmates through posters, handbooks, or other written formats.”

JASO has posters in English and Spanish in every pod explaining the zero-tolerance policy and how to report sexual abuse and sexual harassment.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
In the past 12 months, 484 inmates have entered JASO and had a stay longer 30 days. JASO has the following classifications: Low Custody/Potential Victim; Medium Custody/General Population and High Custody/Potential Perpetrator.

a, b) JASO has policy requiring screening, upon admission, for risk of sexual abuse victimization or sexual abusiveness toward other inmates.

JASO policy PREA 19 states, “All inmates shall be assessed during an intake screening for their risk of being sexually abused by other inmates or sexually abusive toward other inmates. Intake screening shall ordinarily take place within 72 hours of arrival at the facility.”

All Correctional Officers double as Risk Screeners and are responsible for conducting the initial screen.

All officers interviewed reported the PREA Classification Form is part of the booking process. They advised this must be completed before an inmate can be housed.

All inmates interviewed reported being asked the “PREA questions,” when they were admitted to JASO.

While onsite the Auditor pulled five inmate files. The files were pulled from the group of 16 inmates interviewed. Of these five files, all inmates had an initial PREA Classification Form completed on the date they were admitted to JASO.

c, d, e) This same policy also states intake screening shall be done on the “PREA Classification Form.”

JASO policy PREA 19 states, “The intake screening shall consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization: Whether the inmate has a mental, physical, or developmental disability; The age of the inmate; The physical build of the inmate; Whether the inmate has previously been incarcerated; Whether the inmate’s criminal history is exclusively nonviolent; Whether the inmate has prior convictions for sex offenses against an adult or child; Whether the inmate is or is perceived by the screener to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; Whether the inmate has previously experienced sexual victimization; The inmate’s own perception of vulnerability; and Whether the inmate is detained solely for civil immigration purposes. The initial screening shall consider prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the agency, in assessing inmates for risk of being sexually abusive.”

When asked what information the PREA Classification Form collects, staff responses included “age,” “build,” “prior sexual victimization,” “history of violence,” and “LGBT questions.”

The Auditor reviewed the “PREA Screening Questionnaire” and found it meets all requirements outlined in this standard.

f, g) JASO policy PREA 19 also states, Within 30 days from the inmate’s arrival at the facility, the PREA Classification Officer will reassess the inmate’s risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening. An inmate’s risk level shall be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate’s risk of sexual victimization or abusiveness.”

JASO has one PREA Classification Officer. This officer is responsible for making housing placements and conducting the screening reassessment.
The Auditor interviewed the PREA Classification Officer. This officer stated, “All inmates are reassessed within 14 days of booking.” When asked about other reassessments, the officer stated reassessments will be done if new information is received or if a PREA incident happens.

All inmates interviewed reported they remembered sitting down with this officer and answering the PREA questions.

While onsite the Auditor pulled five inmate files. The files were pulled from the group of 16 inmates interviewed. Of these five files, all inmates had an initial PREA Classification Form completed on the date they were admitted to JASO and a reassessment completed within 30 days of admission.

h) PREA 19 also states, “Inmates may not be disciplined for refusing to answer, or for not disclosing complete information in response to the PREA Classification form.

While officers reported they have never had an inmate not participated, they reported inmates are not disciplined for not participating in the intake screening or reassessment.

i) JASO has appropriate controls in place to control the dissemination of the responses to questions on the PREA Classification Form (screening form.)

PREA 19 states, “The agency shall implement appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the inmate’s detriment by staff or other inmates. The PREA screening form shall be placed into the PREA questionnaire box upon completion of the booking process and evaluated by the PREA Classification Officer. The PREA Classification Officer will collect the PREA classification sheets and reeducate Inmates in the following manner: The PREA classification officer will visit with the inmate on a one on one basis within 30 days of intake. Using the reeducation form, the PCO shall conduct the reeducation. Including explanation and materials about Our Zero tolerance policy.”

All officers interviewed reported they place the initial screening form in a locked bock. They reported the Classification Officer has access to his box.

The PREA Classification Office stated after reviewing the forms, they are scanned into a computer and the hard copies are secured in a locked file. Only upper level management has accessed to this computer file.

This was confirmed through interviews with the Sheriff and PCM.

Based on documentation review and interviews, JASO meets this standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

a, b) JASO uses information from the PREA Classification Form to make housing, bed and work assignments.
JASO policy PREA 19 states, “The PREA Classification form, shall be utilized when selecting housing, work and program assignments. The goal is keeping separate those inmates. Individualized determinations about how to ensure the safety of each inmates at high risk of being sexually victimized from those at high risk of being sexually abusive.”

The only inmate work assignments at JASO are workers in the kitchen, laundry and trustees. JASO does not have programming as it relates to education or cognitive behavioral change groups. However, bible study and Alcoholics/Narcotics Anonymous (AA/NA) are available for inmates.

JASO reported inmates classified as High Custody/Potential Perpetrators are not allowed in inmate jobs. Inmate workers in the kitchen are directly supervised and inmates working in the laundry are also directly supervised. During the tour, the Auditor found sufficient camera coverage in the kitchen for officers in the Control Bubble to view. The Auditor also found the laundry room is located just off the Control Bubble. This also allows for additional supervision when inmate workers are present.

The PCM stated, “99% of inmates booked into our jail screen as Medium Custody/General Population. If an individual screens out as Low Custody/Potential Victim or High Custody/Potential Perpetrator; then we house them accordingly.” The PCM went on to state High Custody/Potential Perpetrators will be housed in a separate pod. Low Custody/Potential Victim’s will be housed in pods directly in front of the Control Bubble in bunks closest to the door. The PCM stated this allowed for direct viewing by staff in between hourly security checks.

The Classification Officer stated they work with the PCM and PREA Coordinator to make housing assignments.

c, d, e, f, g) In the past 12 months, JASO has not housed a transgender or intersex inmate.

JASO policy PREA 19 states, “In deciding whether to assign a transgender or intersex inmate to a either a male or female housing unit, or any programming assignments, the agency shall consider on a case-by-case basis whether a placement would ensure the inmate’s health and safety, and whether the placement would present management or security problems. Placement and programming assignments for each transgender or intersex inmate shall be reassessed at least twice each year to review any threats to safety experienced by the inmate. A transgender or intersex inmate’s own view with respect to his or her own safety shall be given serious consideration when determining housing assignments. Transgender and intersex inmates shall be given the opportunity to shower separately from other inmates regardless of housing assignments. The agency shall not place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated cell placement solely on the basis of such identification or status, unless such placement is in a dedicated cell placement in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting such inmates.”

PCM and PREA Classification Officer both reported transgender and intersex inmates are housed according to their classification. They also reported inmate views of their own safety are taken very seriously. This also includes shower opportunities. While each pod as individual showers with sufficient coverage for privacy, if a transgender or intersex inmate expressed concern for the safety during this time, they can be moved to the booking area for a shower.

Based on documentation review, facility tour and interviews, JASO meets this standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

JASO has never housed an inmate involuntarily in segregated housing due to the risk of sexual victimization. JASO does not have designated pod or wing for segregated housing. If an inmate needs to be separated from the rest of the population due to safety issues, they would be housed in a single cell located in booking.

a) JASO has a policy prohibiting the placement of inmates at high risk for sexual victimization in involuntary segregated housing unless a determination has been made there are no available alternative means of separation from likely abusers.

JASO policy PREA 19 states, “Inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.”

PCM reported an inmate victim would never be held separately from the pod. The PCM stated the alleged perpetrator would be held separately then transferred out to keep the victim safe.

Interview with the Sheriff echoed this practice.
b) This same policy states, “Inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility shall document: The opportunities that have been limited; The duration of the limitation; and, The reasons for such limitations.”

The only inmate work assignments at JASO are workers in the kitchen, laundry and trustees. JASO does not have programming as it relates to education or cognitive behavioral change groups. However, bible study and Alcoholics/Narcotics Anonymous (AA/NA) are available for inmates.

c, d, e) JASO policy PREA 19 states, “The facility shall assign such inmates to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of 30 days. If an involuntary segregated housing assignment is made, clear documentation shall be presented with the following: The basis for the facility’s concern for the inmate’s safety; and, the reason why no alternative means of separation can be arranged. Every 30 days, the facility shall afford each such inmate a review to determine whether there is a continuing need for separation from the general population.”

Based on documentation review and interviews, JASO meets this standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

JASO provides multiple ways for inmate to report sexual abuse and sexual harassment.

a, c) JASO policy PREA 19 states, “There are multiple methods for an inmate to report allegations of sexual abuse or harassment. Allegations may be reported verbally to any staff member or in writing using an Inmate Communication Form on the Kiosk or along with the following confidential methods: An inmate is encouraged to report immediately any and all allegations of inmate sexual abuse or sexual harassment. Inmates can report through the JASO Sexual Assault Helpline, accessible by dialing 785-486-2694 through any inmate phone free of charge… Staff, inmate family members or others may report incidents or suspected incidents of sexual abuse by calling 785-468-2694. Allegations of sexual abuse or harassment reported through the third-party hotline shall be confidential and may remain anonymous at the request of the reporting party. These calls shall be referred to the JASO PREA Coordinator, Captain, Undersheriff or Sheriff.”
All officers interviewed reported inmates can report sexual abuse or sexual harassment by either telling an officer directly, writing a note or by calling the hotline.

All inmates reported they can report sexual abuse or sexual harassment by either telling staff or calling the hotline.

b) This same policy states, “Inmates can report through the JASO Sexual Assault Helpline, accessible by dialing 785-486-2694 through any inmate phone free of charge. Calls may be placed anonymously, or the caller may provide identifying information at the caller’s discretion. Access to and the ability to retrieve messages received through the Helpline shall be restricted to administrative staff. The JASO Sexual Assault Helpline shall be publicized in all JASO Pods through the use of posters, notices, etc. Inmate phones shall have helpline instructions posted in a conspicuous location on or near the phones.”

The Auditor verified this information is posted throughout the facility.

The PCM reported the hotline is answered by Horton Police Department. The PCM stated the Horton PD immediately notifies JASO when an allegation is reported.

d) JASO policy PREA 19 states, “ALL Staff shall Immediately report any knowledge, suspicion, or information regarding an Incident of sexual abuse or harassment, whether it is concerning an inmate or another staff member. Staff may report privately, verbally, by writing or by calling dispatch. Staff may report to their supervisor, Appointing Authority, or PIU privately. Documentation shall be completed by the end of shift.”

All staff reported they would immediately report any allegation to a supervisor. When asked if there was a way for them to report outside of this facility, most reported they could also use the hotline.

Based on documentation review, facility tour and interviews, JASO meets this standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
In the past 12 months, JASO has received zero (0) grievances or emergency grievances alleging sexual abuse.

a) JASO is not exempt from this standard and has an administrative procedure for dealing with inmate grievances regarding sexual abuse.

b, c, d) JASO policy PREA 19 states, “Any inmate may submit a grievance either formal, informal or verbally regarding sexual Abuse regardless of the period in which it allegedly occurred to a staff member not involved in the incident. Inmates shall not be made to submit grievances through staff involved. Decisions on any part of the merits of the complaint shall be reported to the inmate within 90 working days.”

Guidance for submitting a grievance is posted on all kiosks and inmate tablets.

e) This same policy states, “Inmates may use a third party (fellow inmate, family member, attorney or outside advocate) To assist in filling requests for administrative remedies relating to allegations of sexual abuse, and filing such requests on behalf of the inmate. The Jackson County Victims Advocate is Lisa Hyten 785-851-1002. Documentation shall be made of any inmate who declines to have a third-party assist filing a grievance alleging sexual abuse.”

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
☐  Does Not Meet Standard  *(Requires Corrective Action)*  

**Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

In the past 12 months, JASO has no incidents of retaliation.

a) JASO has a policy to protect all inmates and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigation from retaliation by other inmates or staff.

JASO policy PREA 19 states, “Retaliation against inmate or staff who report sexual abuse or sexual harassment or who cooperate with investigations shall be strictly prohibited. Staff shall report any allegations of retaliation to the facility PREA Compliance Manager either verbally or in writing. Inmates are encouraged to report retaliation as well.”

b, c) This same policy states, “The facility shall employ multiple protection measures, such as housing changes or transfers for victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations. For at least 90 days following a report of sexual abuse, the facility shall monitor the conduct and treatment of inmates or staff who reported the sexual abuse and of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff, and shall act promptly to remedy any such retaliation. Such checks shall be documented and forwarded to the PCM… • If any other individual who cooperates with an investigation expresses a fear of retaliation, the facility shall take appropriate measures to protect that individual against retaliation.”

**Standard 115.68: Post-allegation protective custody**

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report
115.68 (a)

- Is any and all use of segregated housing to protect an inmate who is alleged to have suffered sexual abuse subject to the requirements of § 115.43? ☒ Yes  ☐ No

**Auditor Overall Compliance Determination**

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

**Instructions for Overall Compliance Determination Narrative**

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

In the past 12 months, JASO has not placed an inmate in involuntary segregated housing for protection after suffering sexual abuse.

a) JASO does not have designated pod or wing for segregated housing. If an inmate needs to be separated from the rest of the population due to safety issues, they would be housed in a single cell located in booking.

JASO policy PREA 19 states, “Inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.”

PCM reported an inmate victim would never be held separately from the pod. The PCM stated the alleged perpetrator would be held separately then transferred out to keep the victim safe.

Interview with the Sheriff echoed this practice.

This same policy states, “Inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility shall document: The opportunities that have been limited; The duration of the limitation; and, The reasons for such limitations.”

The only inmate work assignments at JASO are workers in the kitchen, laundry and trustees. JASO does not have programming as it relates to education or cognitive behavioral change groups. However, bible study and Alcoholics/Narcotics Anonymous (AA/NA) are available for inmates.
JASO policy PREA 19 states, “The facility shall assign such inmates to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of 30 days. If an involuntary segregated housing assignment is made, clear documentation shall be presented with the following: The basis for the facility’s concern for the inmate’s safety; and, the reason why no alternative means of separation can be arranged. Every 30 days, the facility shall afford each such inmate a review to determine whether there is a continuing need for separation from the general population.”

Based on documentation review and interviews, JASO meets this standard.

This was confirmed through documentation review and interviews with the Sheriff and PCM.

e) The Sheriff stated any recommendations made by the review team would be implemented and overseen by the PREA Coordinator.

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

It’s clear that JASO believes that incarcerated individuals have the right to be free from sexual abuse and sexual harassment. This zero-tolerance culture is evident in the policies of the agency, the actions of JASO leadership as well as the knowledge the staff demonstrated of PREA. JASO leadership was quick to ask great questions and wanted the Auditor’s input. Staff was able to articulate the agencies coordinated response to sexual abuse and harassment.

The overall theme of the interviews with inmates included feeling safe at the facility and the belief that staff takes reports of sexual abuse seriously. The inmates were able to explain how to report incidents of sexual abuse and harassment and were able to discuss how they were exposed to PREA education upon intake. While some stated they could not remember the PREA video in its entirety, they did remember viewing it. All inmates reported they knew that opposite gender staff announced themselves at the beginning of each shift.

Staff knew their responsibilities to prevent, detect, and respond to incidents of sexual abuse and harassment. They knew to separate the victim from the alleged perpetrator, secure the scene and to contact their supervisor. They stated that all reports would be documented by the end of shift. They also stated that if they received knowledge of someone being in imminent danger, they would immediately secure the safety of that individual. It is clear there is a zero-tolerance culture at JASO.

Interviews with specialized staff were completed and the results were positive and supported the zero-tolerance culture. Each knew their role and responsibilities as it pertains to PREA compliance and documentation. They articulated the coordinated response and the expectations that staff would follow all policies. Administrative staff was very open to any suggestions the Auditor presented during the tour and the exit meeting.

JASO was found to be in compliance with all PREA standards.
