STANDARD: Written policy, procedure and practice shall require the Intake and Assessment Program to attempt to review the intake and assessment information and the assessment results with the youth and the youth's parent(s)/guardian(s), or another appropriate person.

There may be occasions where this review is not in the best interest of the youth. In these situations, the intake and assessment information and results shall not be shared with the parent/guardian and/or appropriate adult. The Intake and Assessment Program Director or designee shall make the determination if the release of the information and results are not in the best interests of the youth.

DISCUSSION: Reviewing results of the intake and assessment process with the parent/legal guardian/appropriate person keeps them informed of the youth's involvement in the intake process.

NOTE: The standards and procedures set forth herein are intended to establish operational guidelines for the intake and assessment program operating through the board of county commissioners and their employees/contractors and youth participating in the intake and assessment process. They are not intended to establish state created liberty interests for the intake and assessment program or the board of county commissioners, or their employees/contractors, or youth, or an independent duty owed by the Kansas Department of Corrections- Division of Juvenile Services to intake and assessment programs operating through the board of county commissioners or their employees/contractors, supervised juveniles or third parties. This standard and procedure is not intended to establish or create new constitutional rights or to enlarge or expand upon existing constitutional rights or duties.
