Re: Coronavirus Updates

Last week we reported active cases at six of our adult correctional facilities. Thankfully today I am able to report that the medical investigation at one of those facilities, Ellsworth Correctional Facility (ECF), has been closed.

We've also had good news this week out of El Dorado Correctional Facility (EDCF). There were six units with active cases last week and today only two units remain under quarantine.

There have been additional positive cases identified through testing at Hutchinson, Larned and Winfield but we are hopeful that these numbers will remain small and mostly asymptomatic. Many of those who tested positive were relocated to the Lansing Correctional Facility's (LCF) COVID-19 Medical Unit with the exception of some of our residents from Hutchinson, where we have staged another medical unit there. Many of the HCF men who were relocated to LCF will be clearing quarantine this week and beginning to return to their assigned facility.

Below is the most up-to-date information on the total number of positive cases we have had since the beginning of the pandemic:
