

Statistical Summary

FY 2009 Community Corrections Offender Population

KANSAS DEPARTMENT OF CORRECTIONS

COMMUNITY CORRECTIONS DIVISION

A safer Kansas through effective community collaboration and correctional practices

SEPTEMBER 2009

Preface

This report provides a detailed statistical summary of adult offenders under the Kansas community corrections system during fiscal year 2009. The report is based on data pulled from the Total Offender Activity Documentation System (TOADS). The number of offenders for whom information is available varies across data items. The data is also different from what is published in other reports by the Kansas Department of Corrections and the Kansas Sentencing Commission since this report reflects information for community corrections offenders only; is maintained by the community corrections division; captures different data elements; and the data is pulled only from TOADS and is captured at different points in time. The data discussion pages describe in detail what each set of data means. This profile does not include demographic information but will in future reports. There are ten different sets of data included within this report.

Data Description:

Closed Offender Files by Termination Reason: FY 06 to FY09 (pages 6-37):

This has the number and percentage of how the offender files closed during the last four fiscal years. The third chart, last bar in the chart, shows where the 20% reduction is. If the FY09 number is at or beneath that bar, then the agency met the 20% reduction. The first chart has numbers in the bottom right-hand corner; this is the total number of closed offender files for that fiscal year. Information was pulled from Court Case Sentencing Activity Report on 7/7/09 at 7:54:40 AM.

Open Offender Files: FY06 to FY09 (pages 38-50):

This has the total number of open offender files for that fiscal year. Please note that there are three agencies per page. There are two additional pages added at the end of this section. The first additional page has a graph, representing all agencies for FY06 - FY09, and has the agency monthly average number of open offender files. This is a one-sheet glance with all agencies. The second additional page shows the statewide monthly average number of open offender files. Information was pulled from the Court Case Sentencing Activity Report on 7/7/09 at 7:54:40 AM.

Number and Percent of Revocations All Agencies (page 51):

This has the total number and percentage of closed offender files for fiscal year 2009 only. The numbers and percentages match the first set of data in this report. This is different from the first set of data because it's in list, instead of graph, form and it is only for FY09. Information was pulled from the Court Case Sentencing Activity Report on 7/7/09 at 7:54:40 AM.

Percent Successful Completions by Agency (page 52):

Agencies can get a one-page quick snapshot of the percentage of successful completions over the last four years. This way, like agencies can compare themselves. Information was pulled from the Court Case Sentencing Activity Report on 7/7/09 at 7:54:40 AM.

Average Revoked Successful & Unsuccessful by Agency: FY06 to FY09 (pages 53-63):

This will have three agencies per page. This shows the average number of offender files closed per month which is represented by the black numbers above each bar for the last four fiscal years. All revocations are lumped together. There is no "Other" category. The "N=" shows the total number of successful completions, revocations, and unsuccessfuls. The "N=" numbers match the numbers from the very first set of data in this report. In the bottom of each chart there is some text, please note that the number in bold is where the 20% reduction would lie. (Example: SN should revoked **5.9** or less offenders monthly to maintain the 20% reduction in revocations) A black bar is drawn across the revocations sections; this indicates where the 20% reduction is. Any bar that falls at or beneath that line has met the 20% revocation reduction. Information pulled from the Court Case Sentencing Activity Report on 7/7/09 at 7:54:40 AM.

NonSB123 & SB123 Initial Assessment: FY06 to FY09 (pages 64-95):

This has both number and percentage of offenders who **ONLY** received a Pre-Sentence/Initial LSI-R; breaks it down by the four risk levels (over the last four fiscal years); and by those who were sentenced as a SB123 offender and Non-SB123 and then groups them. This does not take into account those who received a Re-assessment or Discharge LSI-R. Information was pulled into Excel from TOADS – Assessments – LSI Flat File – on 7/13/09.

SB123 & NonSB123 Offender Files Closed FY05 to FY09 All Agencies (pages 96-159):

Each page will have two graphs on the front and two on the back. The first page will be the number of SB123 & NON-SB123 **Offender Files Closed** and the next page is the percentage of both types of offenders. This contains information for the last five fiscal years. This breaks down the revocations instead of lumping them together; it also has the total number “N=” at the bottom which is the total number of **case closures** for that offender type (SB123 or not) for that year. Please note that the scales are different for most agencies. Information was pulled from the Court Case Sentencing Activity Report: FY05 on 9/15/08 at 11:33:40 AM; FY06 on 9/9/08 at 10:49:07AM; FY07 on 9/9/08 at 10:54:18 AM; FY08 on 9/9/08 at 10:57:22 AM; and FY09 on 7/7/09 at 7:54:40 AM.

LSIR UNgrouped (pages 160-504):

This does not group the offenders. It has the number and percentage of offenders who scored Very Low, Low, Moderate, High and Very High by LSI-R domain for that termination reason. This **does not** lump revocations together. Information was pulled by Lori Allison from TOADS on 7/6/09.

LSIR Grouped (pages 160-504):

This is the same data as LSIR UNgrouped only the risk levels are grouped together (Very Low/Low, Moderate, High/Very High). This also **does not** lump all the revocations together. Information was pulled by Lori Allison from TOADS on 7/6/09.

Supervision Level by Termination Reason (pages 505-508):

This is very similar to what the Open Offender Files: FY06 to FY09 looks like. This is a one-page snapshot of the number of offenders, risk level by termination reason, for all. Each type of revocation is listed. The second page is similar to the first page only this is the percentage of offenders. The third page lumps the number of revocations together for Risk Level by Termination Reason. The fourth page is like the third page only **percentage** of offenders.

Departures FY05 to FY09 (pages 509-516):

This has the number and percentage of sentences resulting in a departure. It is broken down by type of departure. This will have all the CC agencies and statewide information. This information is pulled from the Court Case Flat View within TOADS.
