

SEXUAL PREDATOR TREATMENT PROGRAM

The Sexual Predator Treatment Program (SPTP) is located at Larned State Hospital. There are seven phases of the treatment program including five inpatient and two outpatient. There is no time limit for completion of each phase. The offender must meet the predetermined requirements of the phase to move on.

RELEASE FROM PROGRAM

Transition: Upon completion of the inpatient portion of the treatment program and if the treatment providers find that there is not a likelihood of re-offending, the offender is then transferred to the transition program to begin slowly readjusting to the community.

Conditional Release: Upon remaining violation free while in transition and by recommendation of the treatment staff, the offender may petition the court to be placed in conditional release.

Final Discharge: After a minimum of five years of violation free placement on conditional release, the offender may be evaluated to determine if final discharge is appropriate.

Violations of Release: If at any time the offender violates any rule, regulation or directive associated with the release program, he will be returned to the secure facility at Larned. A violation hearing will determine if the offender will be allowed to remain in the release program.

Future Commitment: K.S.A. 59-29a19 permits an offender, even after final discharge from the program, to be subject to future commitment under the Sexually Violent Predator Act.

RELATED LAWS AND STATUTES

K.S.A. 59-29a02(a)

“Sexually Violent Predator” means any person who has been convicted of or charged with a sexually violent offense and who suffers from a mental abnormality or personality disorder which makes the person likely to engage in repeat acts of sexual violence.

K.S.A. 59-29a02(b)

“Mental abnormality” means a congenital or acquired condition affecting the emotional or volitional capacity which predisposes the person to commit sexually violent offenses in a degree constituting such person a menace to the health and safety of others.

K.S.A. 59-29a02(c)

“Likely to engage in repeat acts of sexual violence” means the person’s propensity to commit acts of sexual violence is of such a degree as to pose a menace to the health and safety of others.
